**ECONOMIC CRISIS AND THE PATH TO SUSTAINABLE GROWTH** [www.apre.it](http://www.apre.it)

# Focus Area

Strategic programming identifies focus areas, each covered by a specific call, that:

- Bring together activities from different challenges and enabling technologies
- Provide support across the innovation chain from research, to development, to proof of concept, piloting, demonstration projects, and to setting standards and policy frameworks.
- Make use of the full spectrum of funding schemes and types of action e.g. research and innovation actions, innovation actions, ERANets, SME instrument...
- Integrate different perspectives, including from the social sciences and humanities, gender perspectives, and international strategy

# Work Programme TOPICS

## Structure

### SPECIFIC CHALLENGE

- sets the context, the problem to be addressed, why intervention is necessary

### SCOPE

- delineates the problem, specifies the focus and the boundaries of the potential action BUT without describing specific approaches

### EXPECTED IMPACT

- describe the key elements of what is expected to be achieved in relation to the specific challenge
